**QUESTIONABLE AUDITING REPAIR LIST**

*Refs:*

HCOB 8 Mar. 62'	<i>THE BAD "AUDITOR"</i>
HCOB 15 Mar. 62'	<i>SUPPRESSORS</i>
HCOB 26 Oct. 76' - I	<i>AUDITING REPORTS, FALSIFYING OF</i>

This list is for use in cleaning up pcs who have been audited by a questionable auditor. Often a questionable auditor or SP falsifies the worksheets and thus errors made in the session would not necessarily be visible in the PC's folder.

If a PC has been found to have been audited by a questionable auditor or by an SP, that auditing should be FESed and any needed repair actions done. Additionally the C/S can order this prepared list assessed on the pc to detect hidden errors in the auditing.

This prepared list would ordinarily be done Method 5.

This assessment may be prefixed by the line "IN YOUR AUDITING WITH (name of auditor). . ." or used without the prefix.
