

## THE AIMS OF THE HUBBARD DIANETIC RESEARCH FOUNDATION

[1950]

The aims of the Hubbard Dianetic Research Foundation are rooted in a new science of the mind, Dianetics. As described in the book *Dianetics: The Modern Science of Mental Health*, the sole source of human aberration has been discovered, and techniques evolved for its invariable relief. Such a discovery will quickly affect every individual and every activity of human beings in all parts of the world. The aims of the Foundation, therefore, are:

1. To maintain the integrity of Dianetics.
2. To resolve concerns of the individual.
3. To stabilize and advance our society.
4. To stabilize the concerns of nations,  
and render a recourse to war unnecessary.

The speed with which Dianetics must accomplish its research program and expand on a worldwide scale, in order to achieve these purposes in time to prevent catastrophe, can easily be seen.
