CONFESSIONAL REPAIR LIST

This HCOB cancels and replaces all of the following:

HCOB	30 July 70	CONFESSIONAL REPAIR LIST L-CR
HCOB	8 Dec. 72	INTEGRITY PROCESSING REPAIR LIST LIR
HCOB	8 Dec. 72R (Rev. 12.2.73)	INTEGRITY PROCESSING REPAIR LIST LIR
HCOB	23 July 80	CONFESSIONAL REPAIR LIST LCRD

This is the prepared list to use for repairing a Confessional, whether done as auditing or as an HCO Confessional. It is also for use in handling bypassed charge from other O/W actions such as O/W write-ups.

If, after a Confessional or O/W write-up, the person red tags at the Examiner or if he gets sick or upset or falls on his head, this list is assessed and handled to straighten the matter out. The repair action would be a 24-hour repair priority.

If there is a bog during a Confessional action, the auditor would first check for missed withholds, false reads and ARC breaks, in that order, and handle what was found. (Ref: HCOB 30 Nov. 78R, *CONFESSIONAL PROCEDURE*) If this does not resolve the difficulty, one should use the LCRE.

The list is usually assessed Method 3, but may be assessed Method 5 in the case of a severe PC upset or as directed by the Case Supervisor.

The list should be used with a prefix which acts as a time limiter, such as "In this session, _____?" or "On your O/W write-up, _____?"

If the pc has not had previous Int handling or if the Int RD Correction List does not fully resolve the situation, do an Int RD or, on a Clear or OT, the End of Endless Int RD.
