False Purpose Rundown Series 9R

FALSE PURPOSE RUNDOWN CORRECTION LIST

This list is used in repairing flubs or case upsets on persons receiving the False Purpose RD.

If after a session on the False Purpose Rundown the person red tags at the Examiner or if he gets sick or upset or falls on his head shortly after the auditing, this list should be assessed and handled to straighten the matter out. The repair action would be a 24-hour repair priority per policy.

If there is a bog during a False Purpose Rundown session, the auditor uses this list to sort the matter out and get the pc rolling again.

This list would normally be done Method 3, as the questions are written in a precise sequence: The initial questions cover those items which would have to be handled first, and the rest of the questions are laid out generally in the order of likelihood of what would be found to have caused the difficulty.

The list should be used with a prefix which acts as a time limiter, such as “*In this session, _____?*” or “*On the False Purpose Rundown, _____?*”

The majority of the questions on this list are handled by fully clearing a withhold or withholds that were left unhandled in a session. Once such a question is handled, it is

rechecked as per Sec Checking procedure to ensure that there is no more to be gotten on that question.

1. YOU WENT EXTERIOR?

(Indicate it. If PC has never had an Int RD, give him a standard Int RD per Int RD Series 2. On a Clear or OT, do not run any Dianetics; do an End of Endless Int RD. If you are not a Class V Graduate Auditor, end off for a Class V Grad or above to handle.)

2. LIST ERROR?

(Indicate. If Class III or above, find out what list, and repair with L4BRB. If not Class III, end off for handling by a Class III or above.)

9. WITHHELD SAYING SOMETHING FOR FEAR OF GETTING INTO ETHICS TROUBLE?

(Pull it fully, as per Sec Checking procedure, to find out what exactly the PC withheld. After getting the what, when, etc., also ask:
